2022 GRANTS RECEIVED

In addition to raising funds through our annual campaign, United Way applies for various grants throughout the year for community impact projects

IU HEALTH FOUNDATION - \$750,000

Cradle to Career Project, estimated cost \$22 million

United Way for Clinton County has partnered with Clinton County Economic Development Foundation, Community Schools of Frankfort, Clinton Central, Clinton Prairie and Rossville Schools, Ivy Tech and Bauer Family Resources to launch the Career Tech Center and Early Learning Center to promote educational opportunities. IU Health awarded a \$750,000 grant over two years that will be utilized to promote educational opportunities to community members of all ages which in turn will help support our industrial park with skilled workers and quality childcare for our workforce. The community has come together with several partners to support this project along IU Health Foundation.

In addition to the above mentioned, funding partners include: City of Frankfort, Clinton County Chamber of Commerce, Encompass Credit Union, Frito-Lay, NHK Seating of America, Clinton County Government, and the READI Grant.

United Way has been and continues to work with our Industrial Park to figure out their needs for Childcare for their employees. Frito Lay and NHK have shared that their most important issues are to provide quality childcare at an affordable cost and have extended hours to accommodate more of the working force due to shift work. This need is especially critical for infants and toddlers as there are not many providers that care for this population. The Early Learning Center, part of the Cradle to Career project, will provide 6 classrooms to accommodate infants through age 3. It will be a couple years before these needs are met as the Cradle to Career project is about 36 to 48 months to complete. It will be located on State Road 28 between the Frankfort High School tennis courts and where the Administration building. Bauer Family Resources will operate the Early Learning Center and be able to accept up to 200 children with two shifts. The open hours will be from 5 a.m. to 10 p.m. if enrollment supports those hours.

Our goal is to invest back into the health of our community and the people in the community, specifically focusing on the social determinants of health and improving the overall health of the community members within the Clinton County area. It's going to change the dynamic of many families and we are excited about it.

VOLUNTEER HUB - IN THE WORKS!

A gap we identified in our community is one central "hub" where folks can go to find out about volunteer opportunities. We want to be that resource to our community! Through a grant from Indiana United Ways, we are able to allocate staff time to research and meet with other United Ways to find a virtual solution for Clinton County volunteers. More updates coming in 2023!

UNITED WAY FACEBOOK - MIA

We've been missing in action on Facebook! At the beginning of last year's campaign, around September, Facebook unpublished our page because they said we were not following community standards. We've tried to report the error and dispute the decision but have not received any replies from Facebook. So it's time to move on and create a new page. Will you help us by liking our new page and sharing our posts - so we can spread the word on our new page?

You can find us at by our new Facebook name Clinton County United Way or our new handle @UW4ClintonCounty
